It will provide shade and shelter to weary travelers who might require a bit of tranquility and quiet in order to recharge and allow them to commune with their internal and external environments. The Otic Way is an arc of individual Satellites with a central Shade area, composed of geometric crystalline clusters of interwoven modules, that provide individualized and group spaces for meditation and contemplation of the sunrise, sunset and our natural surroundings. The biomimicry of the design complements the desert backdrop and offers a manmade structure that takes inspiration from the rocks, mountains, caves, and plateaus found in nature. It is made completely of interlocking wood, with no nails or metal fasteners.

There, Terence McKenna, Jonathan Ott, Ann & Sasha Shulgin, and a host of other psychedelic luminaries passed along many insights, discoveries, and wild tales to the fortunate Tribe members who were there. And it was at the end of the pool where Terence McKenna gave some of his last talks at the Chan Kah. Years later, then in 2003, a few alumni from those conferences decided to have a "Palenque reunion" at the Burning Man Festival, and so they organized a lecture series to continue the Palenque tradition.

Also, LSA is spreading around the US and world. 10:45 - 12:15 Chakralicious Camp	Living Fully Human...as the Cosmos Personifying Given the Mystery of the physical world explored through science, we need a corresponding spirituality that incorporates the profound insights of science, while including the Mystery of subjectivity found in spirituality and religion. - I propose that Cosmic Personification as a transformational identity shift that includes in Mystery, objective and subjective, and initiates and sustains conscious evolution in our lives. This shift brings the capacity for continuing our personal and social transformation. - I propose living fully human as the cosmos personifying as a viable spiritual meta-orientation. This would mean we intellectually, emotionally, perceptually recognize ourselves as the totality and as unique expressions of Universe. We are not separate from the Universe or each other, rather we are the Whole uniquely manifesting as these dynamic human forms. From this recognition, we shift our behavior individually and collectively to align with this deep insight into our identity. Yes, the Orgasamator is returning to the Camp for Sensual Pleasures, in Spanky's Village. The Orgasmatron had been a fixture at Burning Man for many years, giving thousands of women exceptional physical pleasure in an environment that was safe, comfortable, sensual and private. Four years ago we took everything we had learned from it, completely redesigned the machine for even greater intensity and enjoyment, and we gave it a new name: The Orgasamator. Development has continued with a singular goal of maximizing sensuality, along with our guests' overall pleasure and comfort. When you visit, you will be in a private room with an operator who is experienced, very sensitive to your needs and concerns, who listens well and is deeply dedicated to giving you an amazing experience. You will leave feeling refreshed and respected. Come solo, or better yet, bring a good friend (male or female) to add another dimension to this deeply immersive and wonderfully personal experience. You can wear as much or as little as you would like while riding this marvelous machine, you can stop any time if the pleasure becomes too intense, and no penetration is involved. If you are a woman, the Orgasamator Experience at our I-Scream Parlour is something you won't want to miss. A dusty alien you can barely stand. Fortunately, you can avoid a visit to the Costco Soulmate Trading Outlet with a bit of preparation and foresight. In this workshop, led by open relationship coach and multiple-Burn veteran Marcia Baczynski, you'll find out everything you need for your relationship to not only survive, but thrive, at Burning Man. We'll cover: Your #1 secret weapon for avoiding fights on the playa (especially those really, really stupid ones) - The real reason the Burn makes or breaks relationships - What to do when you have different ideas of what "fun at Burning Man" means - A quick and easy way to get the most out of your time together - and apart - Simple and practical steps you can take now to make your Burn together the best one ever Plus, you'll walk out with your own personalized guide for staying connected, getting what you both need and having a blast during your time in the dust. Whether you're a virgin burner or going home yet again, join us for a hilarious and practical workshop that will help you make sure you get to enjoy your camp, your costumes and your favorite co-conspirators. My response to this in short: Rootism is a belief that the truth of our learned existence lies in the Roots of all teachings/truths and beliefs. These truths are different for everyone based on how they we raised and what we resonate with at the time of our learning. As a Rootist, we take the roots of various truths and incorporate them into our own mantra, our own way of living, to become the well rounded person that we wish to be. When you resonate with more than one truth, you are a Rootist. There are many different types of Rootist's. You could be a Christian Rootist, a Buddhist Rootist, or any type of Rootist. The moment you resonate with more than one truth & take the roots of those teachings as your truths, you become a Rootist. Rootism is a lesson that I have learned and come to resonate with over the last few years. I am grateful to share this information with each of you. Please feel free to share this with anyone with whom you feel might be interested. As an offset of Rootism, we have The Rootist's Way. A style of yoga that is in-tentful in it's design and sequences to help to facilitate a certain type of energy clearing and calling in of new energies. Thank you for reading this and for wanting to know more about Rootism. The 8 Principles of Rootism: ∞Principles of Rootism TM 1. Release what no longer serves - nurture yourself & ground yourself 2. Embrace a Creative Vision 3. Move forward on your journey -Take Steps Fearlessly 4. Empathize and Feel what is going on within you & others 5. Motivate yourself & others by Truth – Check the Ecology of the Whole 6. Bridge the Mind & the Heart 7. Evolve a Pro-Sociality Lifestyle & Manifest a Greater Humanity- help others and give back 8. Revolutionize - Reveal Yourself! Open UP! Inner Knowing is Outer Showing The acronym is "Remember"

19:00 - 22:00 Vines Without Borders 4:45 & Darjeeling	Worldly Wines Happy Hour Vines Without Borders (Vines) is a global wine bar and lounge inviting guests and wines from around the world to convene for an unforgettable burn. Whether you're an enophile (lover of wine) or a neophile (lover of new things) Vines is the first 'port of call' on your Caravansary journey. Our inviting venue features a lively lounge furnished with vintage couches and chairs, illuminated with LED lighting, showcasing a sleek LED back-lit bar designed and built especially for this burn. The Vines international wine theme is our unifying principle for global community and festivity. We will craft an intimate, interactive experience that provides opportunity for people from everywhere to drop in and enjoy discovering others on a deeper level, making connections that survive beyond the week. Our desire to connect stems from experience with our previous Camp Dawdle where we offered adventure rides on the Wheel of Passage. Guests loved the randomness and fun of the wheel rides, gave many thank-you hugs, but quickly moseyed on their merry way. It was unfortunately a fleeting interaction model. We felt we met many great souls but didn't get to know any of them. With our new Vines concept, we increase our 'stickyness' with a cool wine lounge and an emphasis on international guests. Our wine focus and casual setting invites conversation while unavoidable language barriers ensure focused interaction, commitment to the moment and ultimately greater intimacy. Vines will bring together burners from around the world to make global connections around a unifying theme of wine. In the spirit of Caravansary we will be a multicultural hub of interaction and wine sharing. We'll enjoy the melody of world languages spoken throughout our camp and across our bar. Of course, we'll also howl at our own grammatical gaffes while we resort to hand waving to articulate our most earnest points. What we'll enjoy most will surely be the communion of the raised wine glass as we toast one another.	20:00 - 04:00 Brulee, A Kinky Circus	1001 Nights party In honor of this year's theme.
